The Arkansas Genealogical Society has a great deal to be thankful for, and a lot to which to look forward.

We can be thankful that more people are becoming interested in family history research. There is a current "boom" in genealogy. More books are being published. More information is available on the electronic Internet. There are more computer users who are willing to be helpful to those who do not have or use computers.

Younger people in larger numbers are seeking to develop the histories of their families. Genealogy was once looked upon as a hobby of the elderly. Now, the YOUNG are asking questions about their roots and are getting interested in recording what they learn. This is very effective in strengthening families, because it gives family members common interests, common goals, and a sense of purpose.

We can be grateful, too, that legislators have become interested in properly preserving official records. Public records were not created specifically for the use of genealogists. The records were created in response to some law. In order for a law to be enforced, it is necessary for records to be made and preserved. Fortunately, these records all contain names, and there are enough laws on the books to ensure that every individual's name appears somewhere. None of us can pass through this world and not leave some tracks somewhere. Yes, locating that "somewhere" can occasionally be a daunting task, but that

is part of what many call "the thrill of the chase."

Actually, it is probably the anticipated "thrill of the discovery" which motivates most of us. The most common piece of advice I give family researchers is: "Don't give up!" If your ancestor lived long enough to reproduce – and you would not be here if he/she hadn't – he/she lived long enough to generate records. They did not ALL go down on the Titanic. They are perhaps in some obscure place, but they exist. None of us walks through this world without leaving tracks.

Today we can quickly and easily transfer information and store it electronically over an ordinary telephone line. A person in Alaska can ask a complete stranger in Massachusetts if he/she is willing to share a family history record. Almost always the answer is, "Yes," and the same message which contains the "Yes" also contains the desired information. The common generosity of genealogists amaze some who have never done this kind of research. Recently, a woman I have never seen shared with me a genealogical file that looked as if it would extend the history of my mother's family from 1755 in SC to 1027 in France, and the material is documented!

Naturally, I was delighted to even SEE family records that old, and eagerly opened the file she sent. It was TRUE! Here was a documented lineage that now stretches from my children to Robert, Duke of Normandy, who died in 1027 in Falaise, France – 39 generations! Robert was the father of William the

Conqueror who defeated England in the Battle of Hastings, 1044. Personally, I am not excited about being descended from a king. Kings are like the rest of us — good, bad, and indifferent — but the sheer scope of the material is stunning. Thousands of people across the country, and perhaps around the world, are now benefiting from the microfiche death and marriage records that AGS has made available. The collection is added to annually. Plans are being completed for massive additions to those microform records which are already available.

Attend the AGS Fall Seminar and Book Fair Friday evening and all day Saturday, September 11 and 12 at the Holiday Inn East (Airport) in Little Rock, and see, and have the opportunity to purchase, records collected in convenient forms only recently available. Learn from the lectures of Leslie Smith Collier how to use them.

See you there!

Standards For Use Of Technology in Genealogical Research

Recommended by The National Genealogical Society

Mindful that computers are tools, genealogists take full responsibility for their work, and therefore they –

- Learn the capabilities and limits of their equipment and software, and use them only when they are the most appropriate tools for a purpose.
- Refuse to let computer software automatically embellish their work.
- treat compiled information from on-line sources or digital data bases like that from other published sources, useful primarily as a guide to locating original records, but not as evidence for a conclusion or assertion.
- accept digital images or enhancements of an original record as a satisfactory substitute for the original only when there is reasonable assurance that the image accurately reproduces the unaltered original
- cite sources for data obtained on-line from digital media with the same care that is appropriate for sources on paper and other traditional media, and enter data into a digital database only when its source can remain associated with it.
- always cite sources for information or data posted on-line or sent to others, naming the author of a digital file as its immediate source while crediting original sources cited within the file.
- preserve the integrity of their own data bases by evaluating the reliability of downloaded data before incorporating it into their own files.
- provide, whenever they alter data received in digital form, a description of the change that will accompany the altered data whenever it is shared with others.
- actively oppose the proliferation of error, rumor and fraud by personally verifying or correcting information, or noting it as unverified, before passing it on to others.
- treat people on-line as courteously and civilly as they would treat them face to face, not separated by networks and anonymity.
- accept that technology has not changed the principles of genealogical research, only some of the procedures.

AGS Members Asked to Help With Locating Arkansas School Census Records

By Russell P. Baker, Project Coordinator and AGS Board Member, 6525 Magnolia Ave., Mabelvale, AR 72103, 501-888-6981

In these days of wide-spread interest in genealogy, and the publication and distribution of many of its traditional research sources, it is a rare occurrence indeed when one can announce the "discovery" of a body of valuable and practically unknown records of Arkansas genealogical information. This "new" source is the records of Arkansas local school district censuses conducted throughout the state beginning about 1925. These records have the potential of becoming a major source of Twentieth Century genealogical information for our state.

However, there are several major hurdles that must be overcome before these censuses are available to the research public. These records were usually kept by the County School Supervisor in each county. However, that office has been closed in most Arkansas counties. And, because there is no central records repository where these kind of records can be placed, they could be almost anywhere in and around the courthouse or elsewhere. Therefore, our *first* step will be to find out for each county if any of these records still exists. The *second* step will be working with local officials to get permission for the records to be borrowed for copying. The *third* step will be the actual microfilming process itself, done by the Arkansas History Commission and State Archives in Little Rock. At a recent meeting, the AGS Board voted to ask our members to help the Arkansas History Commission

with steps one and two of this project. What makes this help even more urgently needed is the fact that some of these records have already been destroyed, while others are in danger of being disposed of by well-meaning individuals who are unaware of their value.

A little historical background might help explain the origin of these records. In 1923 the Arkansas General Assembly passed Act 558 which required the directors of each local school district in Arkansas to conduct an annual school census of all children within its jurisdiction ranging in age from six to twenty-one. 1925 seems to be the first year of the actual enumeration. Beginning in 1941 only children from ages six to eighteen were enumerated. Forms used for this count were called the "Family Census Blank", and contain the following information: 1) name; 2) number of school district; 3) county in which located; 4) race of child, either "White", "Colored"; 5) child's surname; 6) Christian name; 7) month, day and year of birth; 8) age in years; and 9) sex. The form also includes information on each child's disability, such as 10) "Blind, Defective Sight". Etc. It concludes with (11) the signature of the child's parent or legal guardian, and 12) the mailing address, including "if tenant, name of plantation." In 1942, a new form was employed that noted "Proprietors of rooming houses, commanders of CCC Camps, and heads of school are not authorized to sign these blanks" [as guardians]. However, the parent/guardian was required to sign the "blank himself" unless "[he] cannot

write his name". In 1950 and 1952 an additional census was taken of "Pre-School Children under 6 years of age. Separate forms appear for "White" and for "Colored" children. These censuses continued to be done into the early 1980s. Only a part of these records for Prairie County are currently available at the History Commission. A good file for Cleburne County is now being microfilmed. Bradley and Pike counties have been contacted and report some records, but no date for filming has been set.

What can individual AGS members do to help? First, anyone interested in helping should contact me at the address shown above and tell me of their county of interest, before they do anything else. I will set up a register of who is working on what county. This way, I hope to prevent a duplication of effort and keep from ruffling the feathers of local officials. One person with local roots can accomplish a great deal more, when it comes to dealing with local officials, than a dozen persons from outside the area. I will send those who "sign up" a sample page from these records and some suggestions about where they might begin their search. I will try to keep the membership posted on the progress of this project.

Early Bank Directors

Submitted by Verla Pinkerton, Box 1325, Clute, TX 77531, who states she found this in a genealogical library in Fayetteville. It is believed this is from the Washington County Historical Society publication.

"Editor's Note: Society member D. E. Menske, in reading through the journal of the Senate for 1836, discovered an

entry concerning the legislative section naming directors for the Fayetteville branch of the Bank of Arkansas. The following is an exact copy of that section as it appeared in the journal."

Thursday, November 3, 1835

The two houses then proceeded to the election of nine directors for the branch bank at Fayetteville, when the following named gentlemen were put in nomination: W. T. Larremore, Lodowick Brodie, James Byrnsie, William Skelton, Maurice Wright, John Henry, Alfred Wallace, Philemon Williams and Alfred Henderson.

The result of the joint vote of both houses was for Larremore, thirty-seven votes; for Brodie, thirty-six votes; for Byrnsie, thirty-six votes; for Skelton, thirty-seven votes; for Wallace, thirty-seven votes; for Wright, thirty-six votes; for Henry, thirty-seven votes; for Williams, thirty-seven notes; and for Henderson, thirty-seven votes.

Whereupon, W. T. Larremore, Lodowick Brodie, James Brynsie, William Skelton, Alfred Wallace, Maurice Wright, John Henry, Alfred Henderson, and Philemon Williams, having received a majority of all the votes given, were declared duly elected Directors of the branch of the Bank of the State of Arkansas, at Fayetteville, for the time prescribed by law.

The following Senators voted for each of the persons nominated for Directors, the others not voting, viz: Messrs. Ball, Clark, Ferguson, Hill, Kuykendall, McCamy, Saunders, Thornton and Mr. President.

Baxter Research

Submitted by Grace Baxter Constantine,
166 Whipperwill Rd., Union, NH 03887

Arthur Wellington Baxter, born April 5, 1849, Rutherford Co., NC, came to Arkansas at an early age, spent some time in Polk Co. as a young boy, then went to Crawford Co. where he later married Eliza Anne Garner. Until recently, it was believed he was an orphan because he lived in Polk Co. with distant relatives. Some oral family history has him connected to the Elisha Baxter family of Rutherford Co., NC (Elisha later was governor of Arkansas in the early 1870s). Arthur had two brothers, James Monroe, who served in the Arkansas CSA 22nd Regiment, Company G from Crawford Co. Another brother, Napoleon (not sure of his military service) later moved to Texas.

Data from a family bible sheet lists an R. W. Baxter, born 1812, and a Sophie (Sophia) Baxter, born 1814, and James M. Baxter, born 1838 (possibly parents and brother?); no mention of Arthur Wellington, who died fairly young. Older family members have stated Arthur's great-great-grandfather came from Yorkshire, England, in the 1700s, and mentioned William of NC marrying Catherine Lee, having several children, one being Elisha who later came to Arkansas. Elisha married Harriet Patton in Rutherford Co., NC, Aug. 1849, had six children, but no mention of Arthur and his brothers.

Is there an AGS member researching this line?

Mortons and Marshalls of Crawford Co. _____

Andrew L. Marshall?

Submitted by Paul Morton, 775 I St., Washougal, WA 98671-1130, who writes that his great grandparents, James Quin Morton and wife Charlotte Baker Morton lived in Crawford Co. in the 1860s. James Quin was in Col. James Clarkson's Independent Rangers, and served under Col. Michael Buster. He was also in Col. John B. Clark's Missouri Regiment, and at the Battles of Pea Ridge and Prairie

Grove. He died soon after the Civil War ended and is buried in Macedonia Cemetery where his father, James Richard, and wife Liza Reynolds Morton, are also buried. The Morton line, it is believed, goes back to the Woodsons in 1500 in VA.

_____ Morton (sister of submitter), m. Garner Marshall, son of Jim and Manty Peace Marshall, of Uniontown, Crawford Co. Jim and Manty are buried in Uniontown Cemetery. It is believed the soldier in the picture is Tom Marshall, b. 1828., the father of Jim Marshall. Tom Marshall and wife Sarah and Jim Marshall are found on the 1880 census of Lee Creek Twp., Crawford Co. Jim was born in 1853 in IL. There was an older boy, Willy, and a daughter Sarah, 18. Tom and Sarah were born in NC; children all born in IL. Tom and Sarah buried Hall Cemetery, Crawford Co.

Tom Marshall may have been son of Gilbert Marshall who held various offices in Crawford Co., according to the Arkansas History Commission. Original photo has written on back "Gal? Marshall - father or grandfather of Jim Marshall. Gilbert was born c1800, so it is unlikely the photo is of him. Research continues on this family.

___Arkansas Confederate Veterans Living in Oklahoma in 1911

The following list was uncovered by James W. Cloud, 11204 N. Greystone, Oklahoma City, OK 73120, who is a volunteer at the Oklahoma Historical Society. It is from a publication entitled "Confederate Veterans of the State of OK" issued by Major General Daniel M. Hailey, 1911, McAlester, OK, and located in the "Manuscript Archives- OK Hist." Division of the Oklahoma Historical Society. Mr. Cloud sent a copy of the Arkansas pages to the Arkansas History Commission in Little Rock. The staff there forwarded this copy for *The Arkansas Family Historian*. Beginning in 1914 many, but not all, of these men or their widows received Oklahoma Confederate Pensions. Contact the Oklahoma Historical Society, 2100 N. Lincoln Blvd., Oklahoma City, OK 73105 for possible pension records.

Arkansas Queries

Queries are limited to members only

General guidelines for submitting queries:

- 1) Queries are limited to members only
- 2) Please submit no more than one query per calendar year
- 3) Keep the query to approximately fifty words
- 4) Neatness counts! If possible, type, double spaced. Otherwise, print legibly leaving a space between each line.
- 5) Capitalize surnames
- 6) Remember the 4 W's":

Who - Give complete names of interest

What - What do you want? Keep it short and to the point

Where - Locality in ARKANSAS

When - Give a time period

Since we always work with a large backlog of queries, we strive to print them in the order in which they were received. It may be several months, however, before your query appears. We do use all queries received in a calendar year by the end of that year. We continue to receive queries with no name and address included. If the query gets separated from the envelope, we cannot use it. It simplifies the work of the all-volunteer staff of this publication if you send your query with your membership fee to Arkansas Genealogical Society, P. O. Box 908, Hot Springs, AR 71902-0908.

Book Reviews and Notices

Bobbie Jones McLane, Russell P. Baker, Jan Eddleman, Margaret Ross, Rhonda S. Norris

Kentucky Genealogical Records and Abstracts Volume I: 1781-1839 by Sherida K. Eddlemon (1997), 225 pages, indexed, paperback. The book contains various counties of Kentucky such as Allen, Bath, Breckenridge, Butler, Campbell, Clark, Daviess, Hancock, Harrison, Henderson, Hopkins, Jefferson, Lincoln, Madison, McLean, Meade, Mercer, Muhlenberg, Nelson, Nicholas, Ohio, Russell, Shelby, Simpson, Trigg, Warren and Wayne. Kentucky was the fifteenth state admitted to the union in 1792. It was a part of Virginia. The name Daniel Boone plays an important role as being a famous part of Kentucky.

Various records have been compiled for these counties. The type records that might be found are: Members of the Grand Jury, Marriage Register, Tax List, Kentucky Pensioners, Index to Administrations and Estates, Death Registers, and more. Not all counties have the same records. These records and abstracts can be an essential part for anyone searching for their families in Kentucky. I would recommend this book for anyone searching for information in the named counties. [RSN]

Obituaries of Benton County, Arkansas, Vol. 2, 1899-1904, Vol. 2, compiled by Barbara P. Easley, edited by Barbara P. Easley and Verla P. McAnelly, softbound, 440 pp., index, \$33.50, plus \$4 shipping and handling. Order from Heritage Books, Inc., 1540 E. Pointer Ridge Pl., Suite 300, Bowie, MD 20716. Visa, MasterCard, check, money order. This is the second in a series of ten volumes (so far) covering the years 1884-1931, with work in progress to extend the series through 1945. It includes not only the ordinary obits but also the news articles about unusual deaths (murders, suicides, accidents), as well as occasional legal notices pertaining to estates. All were taken

from several Benton County newspapers. Many had been first published in other newspapers outside the county, and many of the deaths occurred elsewhere, but all were of interest in Benton County. Entries are alphabetical by the year of publication, and the every name index lists a whopping 4,523 names. The deaths were reported in great detail, usually including the cause of death and biographical information, most of which probably is not otherwise available. [MR]

Washington County, Arkansas, Miscellaneous Record Book, 1841-1879, transcribed by Nancy Maxwell, CGRS. 142 pp., surname index, softbound, \$23 plus \$4 shipping and handling. Order from Heritage Books, Inc., 1540 E. Pointer Ridge Pl., Suite 300, Bowie, MD 20716; Visa, MasterCard, checks, money order. The common denominator of the instruments recorded in this book is the fact that they did not fit into any record category for which a ledger was provided at the time they were filed. Most were filed because the filer wanted a certifiable public record to protect his rights of one kind or another. In most localities a few were copied into a deed book or other existing ledger, but most were put into a file of loose papers, to be weeded out when they had served their purpose. The few clerks who set up a separate ledger for them could find no better description than "Miscellaneous." There are conveyances and mortgages of personal property, including sales and manumissions of slaves, lists of property owned by women that were protected from executions of judgments against their husbands, a few lists of family records, partnership agreements, powers of attorney, and others too numerous to list. Though they have outlived their original purpose, they can be a gold mine for genealogists. This publication is a verbatim transcription of the record book, not the

usual abstracts, but for some reason the original page numbers are not shown. [MR]

Going to America, by Terry Coleman. Softbound, illustrations, bibliography, index, 317 pp. Order from Genealogical Publishing Co., 1001 North Calvert St., Baltimore, MD 21202-8492; \$19.95 plus \$3.50 postage and handling. The problems that beset people migrating from the United Kingdom to America were particularly acute during the decade 1846-1855. This era saw the first major boom in the exodus from the UK, much of the transition from brigs to steamships, and a bumper crop of unscrupulous men exploiting poor people who were taking desperate measures to improve their lot. The focus of this book is on those whose economic situation forced them to travel in steerage, under conditions little better than those of the slave ships of an earlier period. The fortunate few who could afford the privacy and relative comfort of cabin occupancy were equally victimized by published misrepresentations of opportunities to be expected in America, but at least they were spared the rigors of a voyage in steerage. If your ancestors sailed in steerage from London or Liverpool during this decade, this book will give you a vivid description of the ordeals they experienced. You are not likely to find their names mentioned, but you will understand them better. It is a fascinating story, well told and thoroughly documented. [MR]

The Kindred Venturers: The History and Genealogy of Peter Barnes (1744-1814) and Related Families, by Shirley Moore Barnes, 3 Walnut Way, Springfield, VT 05156-9142. Hardbound, 426 pp., illustrations, index; price not stated. Peter Barnes, one of nine children of Robert and Lois (Porter) Barnes, and grandson of James and Keturah (Shipley) Barnes, was born in Anne Arundel County, MD. By 1770 he was in Frederick County, MD, and married to Sophia Inman. By 1785, they were in Allegheny County, PA, where Sophia apparently died about 1790. This book begins with his biography

and then details his ancestry in Maryland and Virginia, and his descendants in Pennsylvania, Ohio, Iowa, and a few other states. The only Arkansas relatives covered are Wilson Shannon Buckmaster (1821-1895) who lived at Benton, and his brother Robert, who lived in Prairie County. Related families include Bevington, Buckmaster, Graham, Howard, Inman, Porter, Shipley, Springer and Warner. [MR]

Index of Death Notices Appearing in The Arkansas Democrat-Gazette, July 1 to December 31, 1997, by Oscar G. Russell, CAE, 506 Loop Rd., North Little Rock, AR 72120. 272 pp., softbound, \$21, hardbound \$34, postage paid. 10,569 numbered entries are presented alphabetically in tabular format, gleaned from daily perusal of all editions of the statewide newspaper, not just the obituary pages but general news sections as well. The book's purpose is to serve as a finding aid for specific death notices, not to repeat all the information in them. This information is given: full name, town, state, age, date of edition (not death), page and column numbers, and country if the death occurred outside the United States. Though the majority occurred in Arkansas or had Arkansas associations, many from the news sections are newsworthy people without specific Arkansas interest. Often one death accounts for several entries, when circumstances kept it in the news. [MR]

Correction: A typographical error in our review of the above volume of this ongoing project gave the price of the softbound book inaccurately. The correct price is \$21 postpaid. We sincerely regret the error, and apologize for any inconvenience it has caused.

The Granthams: Seven Generations of American Frontiersmen by Arthur R. Seder, Jr., 2993 River Beach, Williamsburg, VA 23185; published by Genealogy Publishing Services; hard cover; 282 pages; illustrations; photographs; maps; footnotes;

bibliography; index. This book is a history of the Grantham family's migration from England to New Mexico with stops in Virginia, North Carolina, Louisiana, Arkansas and Texas and much more. Mr. Seder has related his family's history to the history of the era about which he is writing. Although he readily admits that his sources for the larger history are secondary, this makes the book a "good read" even if you have no relatives included in it. In the preface, the author says that he is trying to make his nondescript ancestors who, like much of the population at that time were often illiterate and non-famous, more than the skeletons of places and times. In this reviewer's opinion, he has certainly succeeded. In addition, the maps and illustrations are good, the selection of photographs is excellent, and it is indexed. [JBE]

The McMillon-Stone Family History, by Marjorie McMillon Sellers, 5517 Dennis Ave., Fort Worth, TX 76114-4503. Hardbound, 287 pp., index, illustrations, \$30 postpaid. Joseph M. McMillon was born in 1808 in North Carolina and died in 1862 in Cocke County, Tenn., where the next two generations were born. Stephen Stone, born 1750 in Caroline County, Va., took his family to Sumner County, Tenn., where he died in 1838. His grandson, Fountain Garrett Stone (1809-1859) moved to Arkansas in 1847, and lived in Pike, Sevier and Hempstead Counties. The next generations took this family to Texas, where the McMillon-Stone union occurred. Two other families in the Stone lineage, Robert McDonald who died in Sevier County in 1843 and Robert Clark, born c1804 in North Carolina, are given brief special attention. A series of pedigree charts show the basic data for several other branches of the family, ancestors of wives of McMillon and Stone men. [MR]
