

Arkansas Ancestry Certificate Index

Since 1991 the Arkansas Genealogical Society has offered Arkansas Ancestry Certificates to persons who proved their ancestry back to residents of Arkansas in specific time periods: Colonial, prior to 1 January 1804; Territorial, prior to 15 June 1836; Antebellum, prior to 6 May 1861; and Nineteenth Century, prior to 31 December 1900. The certificate is awarded following submission of a completed application form, along with copies of documentary proof and a payment of ten dollars. The original copies of the applications are archived at the Arkansas History Commission (State Archives) in Little Rock, Arkansas, and are available on microfilm for viewing or for making copies.

The following index is alphabetical by the ancestors' surnames, followed by the names of the applicants who received the certificates, the certificate type or period, and then the volume number, issue number, page number, and date of the *Arkansas Family Historian* in which a notice of the certificate award was published. Originally the notices in the quarterly journal included the certificate type or period, the name of the ancestor, the county where he resided, and the submitter's name and address. In December 2004, however, the *Family Historian* began printing a lineage chart for each submitter showing his descent from the ancestor for whom he applied. Viewing the lineage chart in the appropriate issue of the Arkansas Family Historian will allow a researcher to determine if it may be a family line of interest to him.

The far-right column in the index contains the number of the microfilm roll on which an application may be found at the Arkansas History Commission, 1 Capitol Mall, Little Rock, AR 72201. The films may be viewed there, and copied, or requests for copies may be sent. The applications were filed and filmed in alphabetical order by the applicants' names, so the appropriate film must be searched in that way. Requests for photocopies must include the film roll number, the applicant's name, and the ancestor's name. Some applicants received certificates on several ancestors. Some ancestors were used by several different applicants for their certificates.
